

# HUWEL PCR MIX (5X)

## Description

- HUWEL PCR Mix (5x) is a premixed 5x concentrated ready to-use solution. Works well for GC rich templates also.

## Source

- Consists of high quality recombinant Taq DNA Polymerase and other reagents (except template DNA and primers) required for PCR

## Features

- Optimized for high yield of PCR products and robust performance with high specificity
- Works effectively even in presence of inhibitors. As composition is E.Coli DNA free, mix can be used in bacterial identification protocols as well.
- Free from E.Coli DNA
- RNase and DNase free

## Concentration

5X

## Applications

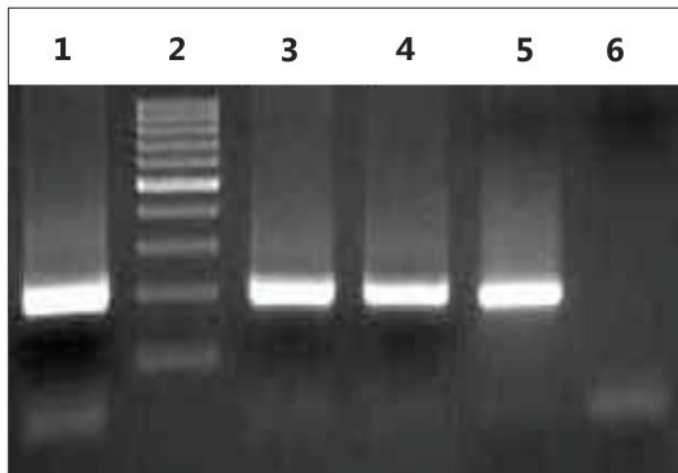

HUWEL PCR Mix (5x) can be used in applications including the following:

- Routine PCR reactions
- Amplifying cDNA
- Generating PCR products for TA cloning

- Lane1 - Human DNA as a Template
- Lane2 - Ladder
- Lane3 - Bacterial DNA as a Template
- Lane4 - Fungal DNA as a Template
- Lane5 - Viral DNA as a Template
- Lane6 - -ve control

## Quality

### Activity and Purity of HUWEL PCR Mix

## Storage

- The recommended storage condition is -20°C.

## Ordering Information

Cat. No	Rxns	Enzyme
HLTQM-5X-100	100 Rxns	1 x 0.50ml
HLTQM-5X-250	250 Rxns	1 x 1.25ml
HLTQM-5X-500	500 Rxns	2 x 1.25ml
HLTQM-5X-5K	5000 Rxns	20 x 1.25ml

Ref: Product and technical insert

## OUR MOLECULAR DIAGNOSTIC KITS RANGE

- Quantiplus Adeno Virus Quantitation Kit
- Quantiplus BK Virus Quantitation Kit
- Quantiplus Epstein Bar Virus Quantitation Kit
- Quantiplus CMV Quantitation Kit
- Quantiplus Chikungunya detection Kit
- Quantiplus MTB/NTM detection Kit
- Quantiplus Dengue detection Kit
- Quantiplus HBV Quantitation Kit
- Quantiplus HSV 1&2 Detection Kit
- Quantiplus JAK-2 V617>F mutation detection Kit
- Quantiplus BCR-ABL Quantitation Kit
- Quantiplus Dengue genotyping
- Quantiplus JC virus Quantitation Kit
- Quantiplus JE virus detection Kit
- Quantiplus Cryptococcus detection Kit
- Quantiplus Malaria Detection kit
- Quantiplus Toxoplasma Detection kit
- Quantiplus HPV 16 & 18 detection kit

**ALL KITS PACK SIZE: 25RXNS & 50RXNS**
